Summary

Physicist and electronic engineer with an MSc in Artificial Intelligence & Language Technology (thesis completed, defence in February 2027) and three years of project leadership in non-profit organisations: co-led a 200-attendee national congress, leading its finance committee to **over €80,000 from about 30 sponsors**, and ran an annual programme of **12+ events**. Trained in WBS, Gantt, critical path and risk management; able to bridge business and engineering or AI teams. English C2; native Spanish and Basque. Currently available.

Project Leadership Experience

Co-head of Organisation and Head of Finance & Funding Sep 2024 – Aug 2025
ENEF 2025, National Congress of Physics Students *Basque Country, Spain*

- Raised **over €80,000 from about 30 companies and public institutions** by writing the project proposal and sponsor dossiers and running outreach through to signed agreements, fully funding a 5-day congress for **about 200 students**.
- Co-led the **20+ member organising team** as one of its two heads, with sole responsibility for the **6-person finance committee**; prepared the spending plan for accommodation, venues and activities.

Secretary and Board Member Sep 2022 – Sep 2025
ZIMATEK, Physics and Electronic Engineering Students' Association (UPV/EHU) *Leioa, Spain*

- Delivered a yearly programme of **12+ contests and talks** (about 60 participants per event, up to 200) as one of a 4-person board, alongside a full-time double degree.
- Designed and sold LaTeX training to **100+ attendees**, including staff at Ikerlan, generating **€3,700** for the association.
- Co-managed an annual budget of several thousand euros with the treasurer and president (university funding, course income, Science Week).

Co-founder and Secretary Oct 2023 – Sep 2025
RSEF Physics Student Group, UPV/EHU delegation *Leioa, Spain*

- Launched the delegation from scratch and ran the local phases of national physics competitions, including the 2025 Physics Olympiad in Euskadi: exams, invigilation and participant logistics.

Co-coordinator, Science Outreach in Schools Apr 2023 – Present
Independent team, previously with ZIMATEK *Bizkaia, Spain*

- Co-coordinate a **4-person team** running experiment workshops in several schools: school contacts, materials budget, meeting minutes and task follow-up.

Research and Technical Experience

Research Intern, IXA NLP Group (UPV/EHU): NLP models for early mental-health risk detection, built to a fixed international shared-task deadline (IberLEF). Nov 2025 – Present

Research Intern, BioRes Group (UPV/EHU): machine-learning models in MATLAB to estimate cardiac output from BCG signals. Sep 2024 – Jun 2026

Research Intern, BCAM: physics-informed neural networks for renewable-energy simulation; regular progress reports to the team. Aug – Oct 2024

Simulation Intern, Bisky Team (student rocketry): simulations to de-risk two real launches; progress reports for international competitions. Sep 2023 – Sep 2024

Product Owner, personal projects: launched and maintain 8 web apps in daily use by friends and family; scope each release from user feedback. Ongoing

Education

MSc in Artificial Intelligence & Language Technology Sep 2025 – Feb 2027 (expected)
University of the Basque Country (UPV/EHU) *Donostia, Spain*

- Coursework completed; top grades in Automated Reasoning (10/10), Research Methods for NLP (10/10), Deep Learning (9.5/10) and NLP Applications (9.2/10).

Double Degree: BSc in Physics and BEng in Electronic Engineering Sep 2020 – Jun 2026
University of the Basque Country (UPV/EHU), GPA 7.64/10 *Leioa, Spain*

- Relevant coursework: *Business and Projects*: WBS, Gantt charts, critical path method, cost and resource estimation, feasibility and risk analysis.

Project and Product Management Courses Oct 2026 – Present
Continuing training alongside the MSc *Online / Bilbao*

- PMI Kickoff project-management course (completed Oct 2026): project charter, risk worksheet, status reporting and closure.
- Digital Product Manager (Gestor de Producto Digital), 150 h, Bilbao, in progress.

Skills

Project management: scope and WBS, scheduling (Gantt, critical path), budgeting, fundraising and sponsorship, risk management, stakeholder management, progress reporting
Tools: Notion, Google Workspace, Excel, Microsoft Office, Git/GitHub, LaTeX, Python, MATLAB
Languages: English (C2, CPE), Spanish (native), Basque (native, HABE C1), Catalan (basic) | **Driving licence**: B, own car
